CHAREK YOSR

Web Development Engineer | Full-Stack Developer

yosrcharek@gmail.com | +216 21 870 951 | Ariana, Tunisia | GitHub: YOSRcharek | LinkedIn: linkedin.com/in/yosr-charek | Portfolio: yosr-charek.netlify.app

SUMMARY

Junior Full-Stack Developer with a Computer Engineering degree and hands-on experience in **front-end and back-end development, REST API design, database management, and application integration**. Proficient in **Java, Spring Boot, Angular, React, Node.js, JavaScript, MySQL, MongoDB, and Docker**. Experienced in developing responsive web applications, implementing scalable backend services, and working across the full software development lifecycle. Strong **problem-solving, organizational, and analytical skills**, with a continuous interest in **AI, cloud technologies, and modern software engineering practices**.

EDUCATION

Private Higher School of Engineering and Technology (ESPRIT) *2023 – 2026*
Engineering Degree, Computer Science

Higher Institute of Technological Studies of Charguia *2020 – 2023*
Associate Degree (BTS) in Computer Science

Street El Attarine High school *2019 – 2020*
High School Diploma — Information Systems Development track

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern (Final-Year Project) — Bambinosit *01/2026 – 07/2026*
Technologies: *Angular, Node.js/Express, Python/Flask, MySQL, Alfresco ECM, Stripe, Jenkins, Docker, Ollama*

- Developed BambinoAcademy, an e-learning platform dedicated to training babysitters and caregivers in Tunisia.
- Automated learning tracking, proctored exams and Face ID-based anti-cheating detection for over 10 certification modules.
- Integrated Stripe and Alfresco ECM to manage subscriptions, payments and educational content.
- Built AI/ML features: RAG chatbot, churn prediction, and exercise generation using Ollama.
- Set up CI/CD with Jenkins and Docker, reducing manual deployment time for the application.

QA / Test Intern — ESPRIT *06/2025 – 08/2025*
Technologies: *Katalon, JMeter, Puppeteer, k6*

- Performed performance, usability and compatibility testing across 5+ browsers and devices.
- Automated test cases with Katalon and set up test coverage tracking matrices.

Full-Stack Developer Intern — ONRTECH *06/2024 – 07/2024*
Technologies: *React.js, Nest.js, MongoDB*

- Built a real-estate booking platform with 3 role-based access levels (visitors, clients, owners).
- Implemented back-office and front-office features, then deployed on a scalable infrastructure.

Full-Stack Developer Intern (Final-Year Project) — Deveoo *01/2023 – 04/2023*
Technologies: *React.js, Node.js, MySQL, Flutter*

- Developed a management platform for beauty and wellness centers, including sign-up and user profile management.
- Built a booking system and approval workflow, along with usage-tracking dashboards.

Software Developer Intern — Globalnet *01/2022 – 02/2022*
Technologies: *Java AWT, MySQL*

- Managed customers, modems, contracts and subscriptions with role-based authentication.
- Built dashboards and a technician interface with notification-based error handling.

Software Developer Intern — Globalnet *07/2021*

Technologies: *HTML, CSS, PHP*

- Developed an online parking reservation system with centralized user and data management.
- Implemented online payments, reducing paper use and improving data access reliability.

ACADEMIC PROJECTS

WasteWise — Environmental Campaigns & Waste Management *09/2025 – 11/2025*

Technologies: *React.js, Python, Fuseki (RDF/SPARQL)*

- Platform for managing environmental campaigns and citizen events; Python/Fuseki (RDF-SPARQL) back-end with AI (OpenRouter) for SPARQL query generation.

LibroLink — Collaborative Book Sharing *09/2025 – 11/2025*

Technologies: *Laravel, MySQL*

- Book-sharing platform with user roles, personal libraries, gamification and secure payments.

Multimodal Learning Hub — Virtual Learning Assistant *09/2025 – 11/2025*

Technologies: *Django, Postgres*

- Multimodal educational platform with a virtual assistant, automatic exercise generation and progress tracking.

Smart190 — Real-Time Hospital & Emergency Platform *02/2025 – 05/2025*

Technologies: *React.js, Node.js, MongoDB, Docker, Python, Flask*

- Real-time healthcare platform: patient monitoring, ambulance routing, AI-based emergency prediction.

HomeLengo — Real-Time Real Estate Management *02/2025 – 05/2025*

Technologies: *Angular, Spring Boot, MySQL, Python, Flask*

- Real-estate agency management platform: interactive maps, AI-based price prediction, Stripe payments.

CI/CD Automation with Jenkins *02/2025 – 05/2025*

Technologies: *Jenkins, Docker, SonarQube, Nexus, Prometheus, Grafana, Mockito, JUnit, Maven*

- Automated a complete CI/CD pipeline (builds, tests, code analysis) with Prometheus/Grafana monitoring.

PetsStore — Microservices Platform *02/2025 – 05/2025*

Technologies: *Spring Boot, Angular, Eureka, Docker, Docker Compose, MySQL, API Gateway, Keycloak*

- Online pet store built with microservices architecture: service discovery and secure API routing via Docker Compose.

TuniCollab — Collaborative Non-Profit Platform *02/2024 – 05/2024*

Technologies: *Symfony, MySQL, JavaFX, FlutterFlow*

- Non-profit management platform: projects, members, events, donation tracking and volunteer sign-up.

Tunisia Touristic — Mobile Tourist Guide App *02/2023 – 05/2023*

Technologies: *Flutter, Firebase Firestore, Firebase Authentication, Google Maps API*

- Mobile tourism discovery app: real-time maps, multilingual support, push notifications.

SKILLS

Languages : C#, Java (J2EE, JavaFX, Java AWT), JavaScript, Python, PHP, Dart (Flutter), Kotlin (Android)

Frontend : React.js, Angular, Bootstrap 5, JavaFX, Flutter, Android SDK

Backend : Node.js, Spring Boot, Symfony, Laravel, NestJS, .NET, Django

Databases : MySQL, PL/SQL, SQL Server, PostgreSQL, MongoDB, Firebase

Web Services : REST API, SOAP, GraphQL

Architecture & DevOps : Microservices, Monolithique, Docker, Docker Compose, GitHub Actions, Jenkins, Prometheus, Grafana

Web & Styling : HTML5, CSS3, XML, Tailwind CSS

UX/UI : Figma

Tools : Katalon, VS Code, IntelliJ, GitHub

ADDITIONAL TRAINING

Angular and Spring Boot — CrocoCoder*2022*
English — Bourguiba School*2019*

CERTIFICATIONS

HashGraph Developer Course	*11/2025*
AWS Academy Graduate – Cloud Foundations	*10/2025*
Python and Machine Learning — Cursa	*09/2025*
API Orchestration Associate — Apollo	*09/2025*
Responsive Web Design — freeCodeCamp	*09/2025*
Intro to Git & GitHub — Le Wagon	*08/2025*
Angular & Spring Boot — CrocoCoder	*11/2022*
