CHAREK YOSR

Web Development Engineer | Full-Stack Developer

yosrcharek@gmail.com | +216 21 870 951 | Ariana, Tunisia | github.com/YOSRcharek | linkedin.com/in/yosr-charek | yosr-charek.netlify.app

SUMMARY

Junior Full-Stack Engineer (Java/Spring Boot, Angular/React) with a Computer Engineering degree and **6 internships across development, QA and DevOps**. Delivered end-to-end platforms in **e-learning, healthcare, real estate and e-commerce**, including **REST APIs, microservices, CI/CD pipelines (Jenkins, Docker) and AI features (RAG chatbot, prediction models)**. Seeking a junior role as a **full-stack or back-end developer** in a collaborative engineering team.

EDUCATION

Private Higher School of Engineering and Technology (ESPRIT) *2023 – 2026*
Engineering Degree, Computer Science

Higher Institute of Technological Studies of Charguia *2020 – 2023*
Associate Degree (BTS) in Computer Science

Street El Attarine High school *2019 – 2020*
High School Diploma — Information Systems Development track

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern (Final-Year Project) — Bambinosit *01/2026 – 07/2026*
Technologies: *Angular, Node.js/Express, Python/Flask, MySQL, Alfresco ECM, Stripe, Jenkins, Docker, Ollama*

- Developed BambinoAcademy, an e-learning platform for training babysitters and caregivers in Tunisia, integrating Stripe and Alfresco ECM for subscriptions, payments and educational content.
- Automated learning tracking, proctored exams and Face ID-based anti-cheating detection for over 10 certification modules.
- Built AI/ML features with Ollama: RAG chatbot, churn prediction and automatic exercise generation.
- Set up CI/CD with Jenkins and Docker, reducing manual deployment time for the application.

QA / Test Intern — ESPRIT *06/2025 – 08/2025*
Technologies: *Katalon, JMeter, Puppeteer, k6*

- Performed performance, usability and compatibility testing across 5+ browsers and devices.
- Automated test cases with Katalon and set up test coverage tracking matrices.

Full-Stack Developer Intern — ONRTECH *06/2024 – 07/2024*
Technologies: *React.js, Nest.js, MongoDB*

- Built a real-estate booking platform with 3 role-based access levels (visitors, clients, owners).
- Implemented back-office and front-office features, then deployed on a scalable infrastructure.

Full-Stack Developer Intern (Final-Year Project) — Deveoo *01/2023 – 04/2023*
Technologies: *React.js, Node.js, MySQL, Flutter*

- Developed a management platform for beauty and wellness centers, including sign-up and user profile management.
- Built a booking system and approval workflow, along with usage-tracking dashboards.

Software Developer Intern — Globalnet *2021 – 2022*
Technologies: *Java AWT, MySQL, HTML, CSS, PHP*

- Built a customer, modem and contract management app with role-based authentication, dashboards and a technician interface (Java AWT, MySQL).

- Developed an online parking reservation system with online payments, reducing paper use (HTML, CSS, PHP).

ACADEMIC PROJECTS

Smart190 — Real-Time Hospital & Emergency Platform *02/2025 – 05/2025*

Technologies: *React.js, Node.js, MongoDB, Docker, Python, Flask*

- Real-time healthcare platform: patient monitoring, ambulance routing, AI-based emergency prediction.

PetsStore — Microservices Platform *02/2025 – 05/2025*

Technologies: *Spring Boot, Angular, Eureka, Docker, Docker Compose, MySQL, API Gateway, Keycloak*

- Online pet store built with microservices architecture: service discovery and secure API routing via Docker Compose.

HomeLengo — Real-Time Real Estate Management *02/2025 – 05/2025*

Technologies: *Angular, Spring Boot, MySQL, Python, Flask*

- Real-estate agency management platform: interactive maps, AI-based price prediction, Stripe payments.

Educational Multimodal Hub — Virtual Assistant for Learning & Coaching

Technologies: *Django, PostgreSQL*

- Multimodal educational platform with role-based access and personalized learning: virtual assistant, auto-generated exercises and progress-tracking dashboards.

LibroLink — BookShare Collaborative Platform

Technologies: *Laravel, MySQL*

- Collaborative book-sharing platform: user roles, personal libraries, wishlists, gamification, notifications and secure online payments for loans and purchases.

SKILLS

Languages : Java, JavaScript, Python, PHP, C#, Dart (Flutter), Kotlin (Android)

Frontend : Angular, React.js, HTML5, CSS3, Tailwind CSS, Bootstrap 5, Flutter, JavaFX, Android SDK

Backend : Spring Boot, Node.js, NestJS, Symfony, Laravel, Django, .NET

Databases : MySQL, PostgreSQL, MongoDB, SQL Server, PL/SQL, Firebase

API & Testing : REST API, GraphQL, SOAP, Katalon, JMeter, k6

Architecture & DevOps : Microservices, Docker, Docker Compose, Jenkins, GitHub Actions, Prometheus, Grafana

Tools & Design : GitHub, VS Code, IntelliJ, Figma

CERTIFICATIONS

HashGraph Developer Course *11/2025*

AWS Academy Graduate – Cloud Foundations *10/2025*

Python and Machine Learning — Cursa *09/2025*

API Orchestration Associate — Apollo *09/2025*

Responsive Web Design — freeCodeCamp *09/2025*

Intro to Git & GitHub — Le Wagon *08/2025*

Angular & Spring Boot — CrocoCoder *11/2022*
